INTELLIGENCE MEMORANDUM

The India-Pakistan Situation
(Report # 114 - As of 4:00 P.M. EDT)

25X1

2. The Pakistani press today gave considerable attention to President Ayub's speech yesterday to troops in forward areas. While Ayub emphasized Pakistan's continued vigilance in the face of Indian threats, the speech was void of alarmism or anti-Indian incitement. The press quoted him as stating "We want to live in peace with India, but let her scrupulously observe the cease-fire agreement she was so anxious to have and settle problems underlying our conflict." This would be in line with previous Pakistani propaganda to the effect that New Delhi sought the cease-fire at a time when Pakistani troops were about to deliver a crushing blow.

4. Radio Karachi continues to report demonstrations in the Kashmiri city of Srinagar but New Delhi says the city and other parts of the Vale of Kashmir are "quite peaceful." Possibly in an effort to counter reports of trouble in the area, a government spokesman in New Delhi announced today that Kashmir is "safe" for tourists again.

NOTE: Special reports on the India-Pakistan confrontation will be discontinued with this issue. They will be resumed, however, if the situation warrants.
